- SPED task force update from 1/23 meeting, next meeting Feb 28
- PD Committee update
- MTA Fund Our Future Campaign is kicking into high gear. Three funding bills have been filed. MTA supports the PROMISE and CHERISH Bills over the bill filed by Gov. Baker and the bill filed by Rep. Paul Tucker. Our primary focus is getting the funding needed to address shortfalls in special education, health insurance, low income and ELL students that is owed to school districts based on the lack of updates to the Foundation Formula without adding additional accountability. We know we will get something done this year-the time is ripe. We don't want to get a bill passed that provides even more punishing measures that impact low performing districts. The public favors supporting more funding for public schools. And the public trusts teachers above all others to inform them about issues in public education.

Therefore we have an opportunity to influence how the changes to funding go forward and get implemented. We need to understand ourselves why the PROMISE and CHERISH Bills offer educators the best outcomes for our students and communities, share that with our families and friends, and keep the pressure on our legislators to get the right bill passed.
